Introduction

This is a chapter-focused word search book that is fun for everyone. The activities are taken from Psalms. Some of which are for praise, thanksgiving, prayer, building trust in the Lord, His care for us, and so much more.

How to

Circle or color the answers. There are three different levels for this book. It starts with easy and two more steps. All words except one or two letters are used. That way, every single word in a verse is read and thought about carefully as the kids find their directions.

If a word is repeated more than once in a verse, you only need to look for it once. When a whole verse is bolded, you are to find every single word.

You are to look for the bolded underlined words.

Have fun!

About the Author

We are a group of believers that love the Lord with all their hearts and want to grow our faith. We have a heart desire for all believers worldwide to know who they are in the Lord and to lead their younger generations to the Lord. We are passionate about helping children build a solid Biblical foundation that will not falter when the storms of Life blow upon them. To do this, we make the Word of God available to parents and their kids around the world so they can guide and lead their children to Jesus Christ. Helping your children achieve a greater understanding of God means a lot to us.

Learn, grow, and love God together...
